DRYBAG :-

Drybag is based on the proven ability of Calcium Chloride to aggressively absorb excess moisture from the air. Drybag is easy to use & it can be hung within the corrugated recess of the container side panel or can be tied horizontally on top of the cargo between the container hooks

HOW DRYBAG WORKS :-

Dry Bag is activated once removed from its sealed package. Once activated, the Calcium Chloride will immediately start to absorb excess moisture from the surrounding air.

WORKING TEMPERATURE

-20° C to 90° C

-4° F to 194° F

NET WEIGHT : 1.0kg

ABSORPTION CAPACITY : upto 2.5 liters
